

# Futureproofing Groundwater in Scotland

Wednesday 18th March, 2026

Strathclyde University

The International Association of Hydrogeologists (British National Chapter) are pleased to announce the **2026 Scottish Groundwater Conference**.

This one-day meeting will focus on the future of hydrogeology in Scotland, showcasing recent advancements in monitoring and modelling, exploring groundwater's role in a sustainable energy transition, and discussing potential capacity issues for the sector.

## ***Full programme:***

09:30 tea/coffee

10:00 Welcome – Neil Burnside

## ***Morning Session: Science to futureproof Scotland's groundwater***

10:15 So demanding! Balancing thermogeological heating and cooling demand with groundwater demand and environmental impact – David Banks

10:35 Remote, real time monitoring systems for groundwater supplies and groundwater resources in Scotland – Nick Mannix

10:55 Digital groundwater systems: insights into the past, present and future, with a focus on Scottish groundwater – Kirsty Upton

11:15 Panel discussion with speakers

11:45 Poster nano presentations

12:30 Lunch and posters

## ***Afternoon Session: Futureproofing groundwater capacity in Scotland***

14:00 Access to careers in hydrogeology – Mike Streetly

14:15 About the IAH – Tim Besien

14:25 Early, and established, career panels / discussion

15:45 Wrap-up

16:00 Close & tea / coffee
